

## Notes of the 2nd TEG-CPI meeting

Geneva, May 3, 2016

The working lunch was attended by Erwin Diewert, Paul Armknecht, David Fenwick, Claude Lamboray, Jan Walschots, Valentina Stoevska, Maria Mantcheva, and Brian Graf. Carsten Boldsen, IWGPS, participated in the first discussion.

David Fenwick raised the issue of the fate of the CPI handbook. Following discussion between those in attendance, it was agreed that the CPI handbook would, to the extent possible, be incorporated into Vol 1 of the updated CPI manual and would cease to exist as a standalone publication. As future need arises, additional handbook can and should be drafted for publication.

Vol 2 (theory) - Erwin Diewert and Jan de Haan will prepare a detailed outline of volume 2 in 3 weeks time (i.e. May 22-23) and send the outline to the TEG-CPI for comments.

Proposed chapter assignments (author/updater) for Vol 1:
