Subject: **Mid Term Evaluation (MTE) report of the project: Vietnam Programme of Support to the National Time Bound Programme on the Elimination of the Worst Forms of Child Labour (VIE/08/06/SPA)**

1. Please find attached the Mid-term Evaluation report of the project Vietnam Programme of Support to the National Time Bound Programme on the Elimination of the Worst Forms of Child Labour (VIE/08/06/SPA) in English, Spanish and Vietnamese.
2. The report is for your records and for formal submission to the donor. The attachment contains three hard copies of the report. Two of the copies are for PARDEV, for submission to the donor. The report will be included in the ILO/IPEC Information Resource Centre available on the Web.
3. The report was prepared by an external team. As per standard ILO/IPEC approach, extensive consultations took place to determine the timing, nature and issues to be covered by the review, and to comment on the initial first draft. This has meant instant feedback and continued learning based around the process.
4. While the evaluation team has carefully considered the comments from the stakeholders involved, the findings, conclusions, and recommendations are those of the team and will be used as part of the planning process for IPEC as a whole.

5. As part of follow-up to recommendations, IPEC will monitor and report the status of follow-up to recommendations, including documentation for why certain recommendations might not have been followed.
7. Thank you very much for your attention to this matter.

Ricardo Furman
Senior Evaluation Officer
Evaluation and Impact Assessment section - EIA
ILO/IPEC
