1. Name and address of the organisation responsible for the last census:

2. Population censuses conducted since 1945 (years):
1985. The present description relates mainly to this population census (which is the first census carried out since 1945), but reference is also made to the next census (cf. para. 9).

3. Coverage of the census:
   (a) Geographical scope: Whole country.
   (b) Persons covered: All persons of all ages.

4. Reference period:
The reference period used when asking questions on the economically active population, employment and unemployment is a short period, i.e. the week prior to the day of the census.

5. Main topics:
   (a) Total population, by sex and age: yes
   (b) Economically active population, by sex and age group: yes
   (c) Economically active population, by industry and by sex: yes
   (d) Economically active population, by occupation and by sex: yes
   (e) Economically active population, by status in employment and by sex: yes
   (f) Hours of work: no
   (g) Other information collected relating to persons' economic activity: no

Re. (a) The age is defined in terms of year of birth.

6. Concepts and definitions:
   (a) Economically active population: It comprises all persons aged 15 years and over who, during the reference period, were either employed or unemployed, according to the definitions given below.
   (b) Employment: Considered as "employed" are all persons aged 15 years and over who, during the reference period, performed any work of an economic value, at home or out of home. Also included are the following categories:
      (i) persons doing unpaid work in family firm or business;
      (ii) persons engaged in the production of primary products for own consumption;
      (iii) employed persons, temporarily absent from work;
      (iv) working students with a part time job;
      (v) apprentices and trainees.

Only persons belonging to category (i) can be identified separately.

(c) Unemployment: Considered as "unemployed" are all persons aged 15 years and over who, during the reference period, were without work and seeking work.

7. Classifications used:
Only employed persons are classified by industry, by occupation and by status in employment.

(a) Industry: Specific questions were asked of employed persons to determine industry group. For coding industry, the International Standard Industrial Classification of all Economic Activities (ISIC-68, rev. 2) has been used to the major division (1-digit) level.
(b) **Occupation:** Specific questions were asked of employed persons to determine occupation group. For coding occupation, the International Standard Classification of Occupations (ISCO-68) has been used to the major group (1-digit) level.

(c) **Status in employment:** Specific questions are asked of employed persons to determine their status in employment such as: own-account worker; employer; employee; unpaid family worker, etc.

8. **The previous population censuses:**

   No population census was carried out since 1945 prior to 1985.

9. **The next population census:**

   It is planned for 1990 or 1991 and will collect information about the economically active population and its components.

   It is not yet decided whether or not the same questions and reference period will be used to determine and describe the economically active population and its component groups.
