The data shown are those available to the ILO on 27 April 2009. They have been drawn from official national statistical publications and websites, or received routinely from national definitions, are not seasonally adjusted, and have not been otherwise adjusted or altered by the ILO.

Care should be taken in comparing these statistics, as some unavoidable differences exist between the concepts used, the sub-sectors, the type of enterprises, or jobs and workers covered, and in types of sources.

Information on the scope of the statistics, their definitions, as well as historical series, can be consulted and/or downloaded from the ILO Bureau of Statistics on-line statistical database
