C187 Promotional Framework for Occupational Safety and Health Convention, 2006

III. NATIONAL POLICY

Article 3

1. Each Member shall promote a safe and healthy working environment by formulating a national policy.
2. Each Member shall promote and advance, at all relevant levels, the right of workers to a safe and healthy working environment.
3. In formulating its national policy, each Member, in light of national conditions and practice and in consultation with the most representative organizations of employers and workers, shall promote basic principles such as assessing occupational risks or hazards; combating occupational risks or hazards at source; and **developing a national preventative safety and health culture that includes information, consultation and training.**

C187 Promotional Framework for Occupational Safety and Health Convention, 2006

IV. NATIONAL SYSTEM

Article 4

1. Each Member shall establish, maintain, progressively develop and periodically review a national system for occupational safety and health, in consultation with the most representative organizations of employers and workers.

...

3. The national system for occupational safety and health shall include, where appropriate:

(a) a national tripartite advisory body, or bodies, addressing occupational safety and health issues;

(b) information and advisory services on occupational safety and health;

(c) the provision of occupational safety and health training;

...

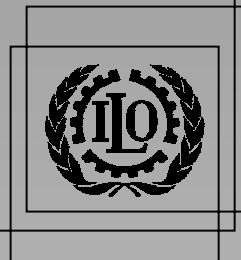

The role of CIS:

Support the ILO's action plan in knowledge management and international collaboration by:

- compiling databases and providing access to them;
- creating or commissioning and disseminating publications (including the ILO Encyclopaedia and related products);
- providing an international meeting point for national institutions.

ILO-CIS Bulletin on-line

For many years, CIS's most visible product was its bibliographic Bulletin called *Safety and Health at Work*. We stopped printing this Bulletin at the end of the 2003 publication year, and we are now pleased to offer its virtual equivalent as one of our electronic products available through the Internet. Each virtual Bulletin contains the latest additions to the CISDOC database, organized in the same CIS number order as the printed Bulletin used to be. No index is necessary, as every Internet browser has an inbuilt Find or Search function.

Laws, regulations, directives

CIS 06-501 Law No.65-99 concerning the Labour Code [Morocco]. (*French*: Loi n°65-99 relative au Code du Travail [Maroc]) Bulletin officiel, Edition de traduction officielle, 2004-05-06, No.5210, p. 600-658. (In French)

Internet:

[http://www.ilo.org/dyn/natlex/natlex_browse.details?](http://www.ilo.org/dyn/natlex/natlex_browse.details?p_lang=en&p_country=MAR&p_classification=01.02&p_origin=COUNTRY&p_sortby=SORTBY_COUNTRY)

[p_lang=en&p_country=MAR&p_classification=01.02&p_origin=COUNTRY&p_sortby=SORTBY_COUNTRY](http://www.ilo.org/dyn/natlex/natlex_browse.details?p_lang=en&p_country=MAR&p_classification=01.02&p_origin=COUNTRY&p_sortby=SORTBY_COUNTRY)

This Labour Code sets out provisions for the terms and conditions of employment in Morocco, including protection of workers' safety and health: general requirements; transport of heavy goods; medical services; safety and health council (see isn 105141); safety and health committees. (105144)

CIS 06-502 Occupational Safety and Health Act 1994 [Malaysia]. Internet document, 1994 (28p.) (In English)

Internet:

<http://dosh.mohr.gov.my/koperat/LAW/Occupational%20Safety%20and%20Health%20Act%201994%20514/a0514.pdf>

<http://www.vertic.org/datasets/National%20Legislation/Malaysia/Occupational%20Safety%20and%20Health%201994%20%5BFULL%5D.doc>

This Act (gazetted on 24 Feb. 1994) provides the legislative framework for OSH among all Malaysian workers (except those on merchant ships and in the armed forces) and all others who may be placed at risk by work-related activities. Other aims of the Act are the promotion of an occupational environment that is adapted to the physiological and psychological needs of workers, the provision of means whereby associated OSH legislation may be progressively replaced by a system of regulations and approved industry codes of practice. Heavy emphasis is placed on the role of the employer in ensuring the safety and health of his workers.

ILO-CIS Bulletin 2007/03

CIS 07-501 --- CIS 07-750

CIS 07-588 A successful workplace program for voluntary counseling and testing and treatment of HIV/AIDS at Heineken, Rwanda. Collier A.C., Richards S.C., Van der Borgh F.M., Rinke de Wit T.F., *International Journal of Occupational and Environmental Health*, Jan.-Mar. 2007, Vol.13, No.1, p.99-106. Illus. 17 ref. (In English)

Internet:

http://www.ijoeht.com/pfds/IJOEH_1301_Feeley.pdf

Heineken Breweries launched a workplace HIV/AIDS programme at its Rwanda subsidiary in September 2001. By January 25, 2005, 736/2,595 eligible individuals had reported for counselling and HIV testing: 380/521 employees (72.9%), 254/412 spouses (61.7%), 99/1,517 children (6.5%) and 3/145 retired (2.0%). As a result, 109 HIV+ individuals were identified: 62 employees, 34 spouses, 12 children and 1 retired. In September 2003 an anonymous HIV seroprevalence survey was performed with participation rates of 69.4% for employees, 58.2% for spouses and 79.7% for adolescents. Using the survey result, the expected number of HIV+ employees was 71, which implies a programme uptake of 87.1% (62/71) in this group. Of the identified 109 HIV+ beneficiaries, 42 were on highly active antiretroviral treatment (HAART). In November 2003 a qualitative study of awareness and health-seeking behaviour of the Heineken Rwanda beneficiaries identified key principles contributing to the success of this programme. (106654)

AMMONIUM NITRATE		ICSC: 0216 March 2007	
CAS # 12124-04-2 Hazard # UN # EC #	0204-02-2 0204-02-2 0204-02-2	Name word: ammonium salt NH_4NO_3 Molecular mass: 80	
TYPES OF HAZARD / EXPOSURE	ACUTE HAZARDS / SYMPTOMS	PREVENTION	FIRST AID / FIRE FIGHTING
IRE	Not combustible but enhances combustion of other substances. Explosive. Causes irritation to eyes, lungs (or gases) in a fire.	NO contact with combustible or reducing agents.	Water in large amounts. NO other extinguishing agents. In case of fire in the surroundings, use flooding amounts of water in the early stages.
EXPLOSION	Risk of fire and explosion under confinement and high temperatures.		Evacuate danger area! In case of fire, keep down, etc., cool by spraying with water. Control fire from a sheltered position.
EXPOSURE		HYGIENE / PROTECTIVE EQUIPMENT	
Inhalation	Cough, Headache, Sore throat, See irritation.	Local exhaust or breathing protection.	Fresh air, rest. Artificial respiration if indicated. Refer for medical attention.
Skin	Redness.	Protective gloves.	First rinse with plenty of water, then remove contaminated clothes and rinse again. Refer for medical attention.
Eyes	Redness, Pain.	Safety goggles.	First rinse with plenty of water for several minutes (remove contact lenses if easily possible), then take to a doctor.
Ingestion	Abdominal pain, Blue lips or fingers, Blue skin, Convulsions, Dizziness, Drowsiness, Vomiting, Weakness.	Do not eat, drink, or smoke during work.	Rinse mouth. Refer for medical attention.
SPILLAGE DISPOSAL		PACKAGING & LABELLING	
Evacuate danger area! Consult an expert! Sweep spilled substance into non-combustible container. Wash away remainder with plenty of water.		EU Classification UN Classification UN Hazard Class, S, I UN Pack Group, III	
EMERGENCY RESPONSE		STORAGE	
Transp. Emergency Card: F+EC (R)-S40 NFPA Code: H2, F3, R2, etc.		Provision to contain effluent from fire extinguishing. Separated from combustible and reducing substances. Dry.	
IPCS International Programme on Chemical Safety		Prepared in the context of cooperation between the International Programme on Chemical Safety and the Commission of the European Communities (IPCS, DEC 2001) www.who.int/ipcs

The future

- Integrate the ILO Encyclopaedia further with our database work
- Further develop Internet and off-line electronic resources
- Further develop collaborative databases similar to the CIS Centre News and the Directory of OSH Institutions
- Continue our annual Centres meetings and seek support for regional ones
- Intensify interaction with Centres
