

National CIS Center in Tanzania

OSHA

CIS Center

- The centre is housed in the “***Information, Research, and Training Unit***” within OSHA
- Roles of the centre are:
 - o To maintain Management Information System (MIS)
 - o To organise registers of workplaces, boilers and other plants (**database**);
 - o To conduct research in OSH areas
 - o to collect OHS data, analyse to generate information, and disseminate the information to be used by other stakeholders
 - o Coordinate the preparation of Newsletters, brochures leaflets etc
 - o Keeping reading materials (maintenance of the library)

Database management system

- Is developed by three **internet** environment programming languages
 - Hypertext Preprocessor – [PHP](#)
 - MySQL – keeps the database
 - Hypertext make up language (html)/java script –

}  *Back End*

Front End
- The workplaces information is entered from prescribe forms (OSHA 1 [\(a\)](#) and [\(b\)](#))
- Advantage: access and data entry can be made through internet from remote offices
