Theme : Health and life in work, a fundamental human right .

Place: Ministry of Labour , Employment and Social Security.

28 Avril 2009

- ▣ The objective of these seminars on health and safety in work is to make workers in the world more receptive to a subject of prevention of occupational hazards and allowed institutions of a rich debate and gave place to an exchange of experiences and the necessity of improving working conditions of hygiene and Safety in work.

Perspectives of the Institute

- ▣ update of the data bas
- ▣ improvement of the quality of the supports of information
- ▣ The support of the CIS for the development of documentary center INPRP
- ▣ assistance in the installation of the laboratories through visits of laboratories and experience sharing between the various countries and similar institutions

Conclusion

- ▣ the CIS is an important support for the INPRP in particular for experience sharing , therefore we regularly call upon the CIS for orientations and information.
- ▣ the INPRP thanks the CIS and sincerely hopes to collaborate with other centers CIS.
