All Occupational Health and Safety Officers

Dear Sir/Madam

**RE: WORLD DAY FOR SAFETY AND HEALTH 2006 CELEBRATION
28th April 2006**

The World Day for Safety and Health will be observed worldwide on the **28th of April 2006**. The theme of this year's commemoration is Decent Work; Safe Work and HIV Aids. The 2006 World Day for Safety and Health at Work is intended to focus international attention on promoting and creating a preventative safety and health culture at work and to help reduce the number of work-related deaths and injuries each year, including those resulting from HIV/AIDS and to make work decent by eliminating workplace stigma and discrimination related to HIV/AIDS. The Directorate of Occupational Health and Safety Services (DOHSS) joins the world in celebrating this day. The National celebrations will be held in **Nakuru**.

On behalf of the Organizing Committee, you are hereby invited to join us for the celebration which will be held at the Nyayo Gardens starting at **10.00am**. There will be a safety and health procession from Nakuru Railway station to the Gardens where a number of activities will be taking place.

**Winston G.O. Audi,
Secretary, Organizing Committee,
World Day for Safety and Health &
National Safety and Health Week**
