

## **Acknowledgements**

This data release (together with its annual predecessors) represents the major output from the Household, Income and Labour Dynamics in Australia (HILDA) Survey, an Australian Government initiative.

The HILDA Survey is funded by the Australian Government Department of Social Services, but managed by the Melbourne Institute of Applied Economic and Social Research at The University of Melbourne, which in turn sub-contracts the data collection to Roy Morgan.

While this release is ultimately the result of the contributions of a great many people, and too many to be individually listed here, some of the key contributors to this release are:

### Melbourne Institute

Mark Wooden – Overall responsibility for the HILDA Survey project, as well as directly responsible for questionnaire design

Michelle Summerfield – Overall responsibility for management of the sub-contract and data editors, and editing variables within the HF and PQ

Nicole Watson – Production of the weights and overall responsibility for the imputation

Roger Wilkins – Questionnaire design and derived variable design

Ninette Macalalad – Production of the datafiles, checking and editing variables, and construction of derived variables

Brooke Garrard – Checking and editing SCQ and PQ variables, preparation of the coding framework documentation and generation of marked up CAPI based questionnaire

Roopa Kamath – Checking and editing SCQ and PQ variables

Yihua Jin – Production of the imputation, and checking and editing SCQ variables

Markus Hahn – Annual update of the income tax derived variables

### Roy Morgan

Davina Heng – Director of the Roy Morgan HILDA Survey team

Shane Pickard – Responsible for day-to-day administration of the survey and management of the panel

Mary-Ann Patterson – Responsible for interviewer training and management, and respondent engagement

Tania Bellofiore – Responsible for overseeing changes to methodology and contract management
